

SANCTUARY REEF

A TRAVELING EXHIBIT FROM MOTE MARINE LABORATORY

small footprint...low cost...high interactivity...engaging content

Imagine an exhibit that connects your visitors with a live presenter through a TV screen. That's what SeaTrek Traveling Exhibits do.

A novel approach to mixing interactive media with exhibit displays, SeaTrek's Traveling Exhibits are aimed at attracting and directly engaging your visitors. The exhibits are small, low-cost and combine informative and intriguing displays on ocean themes with SeaTrek's award-winning live programming.

LARGER-THAN-LIFE

Enter a semi-enclosed area covered with 10 X larger-than-life replicas of reef creatures found in the Florida Keys National Marine Sanctuary.

- Footprint 16 ft. x 18 ft. Canopy height is 10 ft.
- Rental fee is \$6,000 for one month period. Includes 8 live interactive videoconference programs. Additional weeks and programs may be added.

SANCTUARY REEF

A TRAVELING EXHIBIT FROM MOTE MARINE LABORATORY

small footprint...low cost...high interactivity...engaging content

FEATURES

Interior

Larger-than-life reef sculptures display adaptations and survival strategies of reef animals, including coloring, interspecies relationships, feeding and sheltering.

Exterior

Exterior panels include displays on coral anatomy, reef communities, threats to coral ecosystems and ways to conserve the reef. The research and conservation efforts of Mote scientists are also featured.

DETAILS

Assembly

The exhibit is shaped like an overturned ship's bow when assembled. Setup and breakdown is provided by Mote staff. This service is included in the rental fee. The exhibit is made up of seven rolling modular components that fit together. The canopy and accessories ship in a separate crate. Each module and the crate fit through a standard doorway. Up to 15 folding chairs are available at no additional charge.

Electrical/Internet Requirements

The exhibit requires a 120v electrical outlet. The videoconference system uses an Ethernet connection and requires a network speed of 384K or more.

Shipping

Shipping rates vary with location and season. The host is responsible for inbound shipping charges.

Insurance

Proof of liability and property insurance is required for exhibit rental.

Videoconference Programs

A videoconferencing system is included in the "bow" of the exhibit. Eight interactive video programs are included in the rental fee. More programs may be scheduled at an additional charge. Mote staff can advise the host site on optimal network configuration for program delivery.
